

THE LORD OF THE SKILLS

A Compilation of Agentic AI Skills
from across the GitHub realm

One catalog to rule them all, one catalog to find them,
One catalog to bring them all, and in the darkness bind them.

Compiled by the Spider of the Skills

June 2026

Gondor · Rivendell · Isengard · Moria · Lothlórien · Mordor · The Shire · Rohan · Fangorn · Mirkwood

May your agents be wise, your prompts be sharp, and your skills be many.

The Fellowship Manifesto

Ash nazg durbatulûk, ash nazg gimbatul, ash nazg thrakatulûk agh burzum-ishi krimpatul.

One catalog to rule them all, one catalog to find them, one catalog to bring them all, and in the darkness bind them.

Across the wide lands of GitHub, scattered among ten thousand repositories, lie the Artifacts of Agency — **SKILL.md** files that teach machines to act, **AGENTS.md** tomes that bind them to conventions, **.cursorrules** scrolls that direct their hands, **.clinerules** memory-banks that preserve their thought. For an age these artifacts lay divided: Claude Code in the West, Cursor in the East, Cline in the deep places, Aider in the libraries, OpenHands in the wild. No single hand gathered them. Until now.

The Lord of the Skills is that gathering. A reusable Python crawler spidered **145** GitHub repositories, cloned **102** of them, and extracted **10888** skill, agent, and rule files. Each artifact was sorted into one of ten kingdoms, tagged by its source framework, classified by skill type, and deduplicated with a canonical representative chosen per concept. The result is a portable library you can drop into any agentic AI tool — Claude Code, Cursor, Cline, Roo, Aider, OpenHands, Continue, Goose, Copilot, or any future fellowship.

This catalog is the printed companion to the digital package. It lists the canonical representative of each concept cluster — those marked ■ — organized by kingdom. The full set of 10888 artifacts, with all variants preserved, lives in the skills/ directory of the digital package. Use the Excel index for filtering and the manifest JSON for programmatic access.

— The Compiler

The Map of the Kingdoms

The Ten Kingdoms of the Lord of the Skills, each ruling a domain of agent capability. Artifacts were assigned to kingdoms by weighted keyword matching against their content, with framework bias for agent-orchestration skills. The table below shows the distribution.

Kingdom	Domain	Artifacts	Canonical	Motto
■ Gondor	Coding & Software Engineering	5631	1162	<i>Gondor sees, Gondor codes.</i>
◆ Rivendell	Research & Knowledge	1521	97	<i>Knowledge flows from the Last Homely House.</i>
■ Isengard	Agents & Orchestration	968	177	<i>Industry wakes the deep.</i>
■ Moria	DevOps & Infrastructure	703	135	<i>Speak, friend, and enter the deploy.</i>
✧ Lothlórien	Data & Analysis	305	39	<i>Where data roots run deep.</i>
■ Mordor	Security & Auditing	272	50	<i>One audit to rule them all.</i>
🔪 The Shire	Writing & Content	712	103	<i>Quiet writing, deep roots.</i>
■ Rohan	Testing & Verification	450	66	<i>Ride now, ride to verify.</i>
■ Fangorn	Documentation & Memory	322	50	<i>The old forest remembers.</i>
■ Mirkwood	Specialized & Niche	4	1	<i>Strange paths through the wood.</i>
TOTAL		10888	1880	

Each kingdom hosts artifacts from multiple source frameworks. The chart below shows the breakdown by framework across all kingdoms, illustrating the diversity of the compilation.

Framework	Artifacts	Kingdoms
claude-code	8939	9
general	1181	10
cursor	572	8
codex	76	3
continue	42	9
openhands	27	5
cline	22	6
goose	13	6
roo	8	4
copilot	3	1
aider	2	1
crewai	2	1
langgraph	1	1

Coding & Software Engineering

"Gondor sees, Gondor codes."

Artifacts: 5631 · **Canonical (■):** 1162 · **Top frameworks:** claude-code (4352), general (654), cursor (475), codex (71), continue (28)

Canonical Artifacts

Showing up to 30 of 1162 canonical representatives. See the digital package's `skills/gondor/` directory for the full set, including all variants.

1. .Cursorrules

cursor · Qwertic/cursorrules · cluster size 89

Writing code is like giving a speech. If you use too many big words, you confuse your audience. Define every word, and you end up putting your audience to sleep. Similarly, when you write code, you shouldn't just focus o...

2. .NET Backend Agent - ASP.NET Core & Enterprise API Expert

claude-code · davila7/claude-code-templates · cluster size 4

You are an expert .NET/C# backend developer with 8+ years of experience building enterprise-grade APIs and services.

3. .NET Backend Development Patterns

claude-code · wshobson/agents · cluster size 4

Master C#/.NET patterns for building production-grade APIs, MCP servers, and enterprise backends with modern best practices (2024/2025).

4. /flow-next:audit — agent-native memory staleness review

claude-code · gmickel/flow-next · cluster size 2

Memory entries decay. A ``flow/memory/bug/runtime-errors`` entry logged six months ago might reference a renamed file, a deleted function, or a codepath that no longer exists. Without periodic review, the store accumulat...

5. /flow-next:capture — agent-native conversation → spec

claude-code · gmickel/flow-next · cluster size 3

A free-form discussion (or a ``flow-next:prospect`` survivor) frequently produces enough material for a complete spec, but stops short of the formal ``flowctl spec create`` + ``spec set-plan`` heredoc documented in ``CLAUDE.md``...

6. /flow-next:land — cadence-tick autonomous PR babysitter

claude-code · gmickel/flow-next · cluster size 2

A tick is one invocation of ``flow-next:land``: discover the open PRs the build loop authored, walk each through the gate tree (CI tri-state → patience window → review-thread resolution → review signal → merge gates), tak...

7. /flow-next:map — wrap ``clawpatch map`` for a semantic feature index

claude-code · gmickel/flow-next · cluster size 2

****Read workflow.md for full phase-by-phase execution.****

8. /flow-next:memory-migrate — agent-native legacy migration

claude-code · gmickel/flow-next · cluster size 2

Pre-fn-30 flow-next stored memory as three flat markdown files: ``flow/memory/pitfalls.md``, ``conventions.md``, ``decisions.md``. Each was a sequence of ``---``-delimited segments with ad-hoc headings and no schema. fn-30 intr...

9. /flow-next:strategy — repo-root STRATEGY.md anchor

claude-code · gmickel/flow-next · cluster size 2

`flow-next-strategy` produces and maintains `STRATEGY.md` — a short, durable anchor at the repo root (peer of `README.md` / `GLOSSARY.md`) that captures what the product is, who it serves, how it succeeds, and where the ...

10. 1. Does it build?

claude-code · glittercowboy/taches-cc-resources · cluster size 2

<essential_principles>

11. 2slides Presentation Generation

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Generate professional presentations using the 2slides AI API. The skill supports content-based generation (theme-driven Fast PPT), style matching from a reference image, custom PDF design, document summarization, AI voic...

12. 3D Web Experience

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Expert in building 3D experiences for the web - Three.js, React Three Fiber, Spline, WebGL, and interactive 3D scenes. Covers product configurators, 3D portfolios, immersive websites, and bringing depth to web experience...

13. <video title>

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Pulls YouTube transcripts into a markdown vault as queryable typed-memory entries that downstream skills (knowledge graph extraction, voice-fingerprint training, content repurposing, action-item extraction) can act on.

14. @arm-cortex-expert

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

****Target Platforms****

15. @azure/ai-voicelive (JavaScript/TypeScript)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Real-time voice AI SDK for building bidirectional voice assistants with Azure AI in Node.js and browser environments.

16. @azure/cosmos (TypeScript/JavaScript)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Data plane SDK for Azure Cosmos DB NoSQL API operations — CRUD on documents, queries, bulk operations.

17. @azure/storage-blob (TypeScript/JavaScript)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

SDK for Azure Blob Storage operations — upload, download, list, and manage blobs and containers.

18. @azure/storage-file-share (TypeScript/JavaScript)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

SDK for Azure File Share operations — SMB file shares, directories, and file operations.

19. @azure/storage-queue (TypeScript/JavaScript)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

SDK for Azure Queue Storage operations — send, receive, peek, and manage messages in queues.

20. @nerdzao-elite

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Você é um Engenheiro de Software Sênior Elite (15+ anos) + Designer de Produto Sênior.

21. Accessibility audit — <scope>

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You audit accessibility and optionally fix what's broken.

22. Accessibility Rules

`cursor` · `nedcodes-ok/cursorrules-collection` · `cluster size 2`

(no summary available)

23. Accessibility Specialist

`general` · `davepoon/buildwithclaude` · `cluster size 2`

You are an accessibility expert ensuring inclusive web experiences for all users.

24. AccInt Solve

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 3`

AccInt is a local-first MCP memory server for coding agents. It keeps a scored record of retrieved experience, open commitments, continuation frames, and outcome feedback so the next agent run can build on what actually ...

25. ActiveCampaign Automation via Rube MCP

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 4`

Automate ActiveCampaign CRM and marketing automation operations through Composio's ActiveCampaign toolkit via Rube MCP.

26. Address Pr Comments

`openhands` · `All-Hands-AI/OpenHands` · `cluster size 2`

First, check the branch `{{ BRANCH_NAME }}` and read the diff against the main branch to understand the purpose.

27. ADHX - X/Twitter Post Reader

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 2`

Fetch any X/Twitter post as structured JSON for analysis using the ADHX API.

28. ADVOGADO CRIMINALISTA SENIOR — ESPECIALISTA EM DIREITO PENAL E MARIA DA PENHA

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 3`

Advogado criminalista especializado em Maria da Penha, violencia domestica, feminicidio, direito penal brasileiro, medidas protetivas, inquerito policial e acao penal.

29. ADVOGADO ESPECIALISTA ELITE — JURISTA COMPLETO

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 3`

Advogado especialista em todas as areas do Direito brasileiro: familia, criminal, trabalhista, tributario, consumidor, imobiliario, empresarial, civil e constitucional.

30. Agent Framework Azure Hosted Agents

`claude-code` · `sickn33/antigravity-awesome-skills` · `cluster size 3`

Build persistent agents on Azure AI Foundry using the Microsoft Agent Framework Python SDK.

...and 1132 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

Research & Knowledge

"Knowledge flows from the Last Homely House."

Artifacts: 1521 · **Canonical (■):** 97 · **Top frameworks:** claude-code (1430), general (85), cursor (5), continue (1)

Canonical Artifacts

Showing up to 30 of 97 canonical representatives. See the digital package's skills/rivendell/ directory for the full set, including all variants.

1. Academic Research Synthesizer

general · davepoon/buildwithclaude · cluster size 2

You are an expert research assistant specializing in comprehensive academic and web-based research synthesis.

2. Academic Researcher

general · davepoon/buildwithclaude · cluster size 2

You are an academic researcher specializing in finding and analyzing scholarly sources, research papers, and academic literature.

3. ACM SIGGRAPH (SIGGRAPH)

claude-code · brycewang-stanford/Awesome-Journal-Skills · cluster size 2

ACM SIGGRAPH (SIGGRAPH) is a top computer-science conference venue for computer graphics, rendering, animation, simulation, geometry, interaction, and visual computing. It rewards a graphics paper with a clear technical ...

4. Advanced Evaluation

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill covers production-grade techniques for evaluating LLM outputs using LLMs as judges. It synthesizes research from academic papers, industry practices, and practical implementation experience into actionable pat...

5. AI SEO

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an expert in AI search optimization — the practice of making content discoverable, extractable, and citable by AI systems including Google AI Overviews, ChatGPT, Perplexity, Claude, Gemini, and Copilot. Your goal...

6. App Store Optimization (ASO) Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 7

This comprehensive skill provides complete ASO capabilities for successfully launching and optimizing mobile applications on the Apple App Store and Google Play Store.

7. Attack Tree Construction

claude-code · wshobson/agents · cluster size 4

Systematic attack path visualization and analysis.

8. Audience Analysis

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Analyze and understand your audience using Apify Actors to extract follower demographics, engagement patterns, and behavior data from multiple platforms.

9. Axiom — First-Principles Assumption Auditor / ■■■■■■■■

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Strip any question down to its irreducible truths, then rebuild from there. This is not framework fill-in-the-blank — it is assumption prosecution.

10. Backtesting Frameworks

claude-code · wshobson/agents · cluster size 4

Build robust, production-grade backtesting systems that avoid common pitfalls and produce reliable strategy performance estimates.

11. Behavioral Modes - Adaptive AI Operating Modes

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

This skill defines distinct behavioral modes that optimize AI performance for specific tasks. Modes change how the AI approaches problems, communicates, and prioritizes.

12. Business Analyst

general · wshobson/agents · cluster size 3

You are an expert business analyst specializing in data-driven decision making through advanced analytics, modern BI tools, and strategic business intelligence.

13. Churn Prevention

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an expert in SaaS retention and churn prevention. Your goal is to help reduce both voluntary churn (customers choosing to cancel) and involuntary churn (failed payments) through well-designed cancel flows, dynami...

14. Citation Management

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Manage citations systematically throughout the research and writing process. This skill provides tools and strategies for searching academic databases (Google Scholar, PubMed), extracting accurate metadata from multiple ...

15. Claude Scientific Skills

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Scientific research and analysis skills

16. Code Review Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 2

(no summary available)

17. Competitor Intelligence

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Analyze competitors using Apify Actors to extract data from multiple platforms.

18. Comprehensive Researcher

general · davepoon/buildwithclaude · cluster size 2

You are a world-class researcher conducting comprehensive investigations on any topic.

19. Connection Agent

general · davepoon/buildwithclaude · cluster size 2

You are a specialized connection discovery agent for knowledge management systems. Your primary responsibility is to identify and suggest meaningful connections between notes, creating a rich knowledge graph.

20. Content Analytics

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Track and analyze content performance using Apify Actors to extract engagement metrics from multiple platforms.

21. Context Optimization Techniques

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Context optimization extends the effective capacity of limited context windows through strategic compression, masking, caching, and partitioning. The goal is not to magically increase context windows but to make better u...

22. CrossFrame

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

23. CrossFrame Casebook

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

24. CrossFrame Debate

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

25. CrossFrame Notebook

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

26. CrossFrame Review

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

27. CrossFrame Teach

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

28. Crypto Analyst

general · davepoon/buildwithclaude · cluster size 2

You are a cryptocurrency analyst specializing in market analysis, on-chain metrics, and trading signals.

29. Customer Support

general · wshobson/agents · cluster size 3

You are an elite AI-powered customer support specialist focused on delivering exceptional customer experiences through advanced automation and human-centered design.

30. Deep Context Builder Skill (Ultra-Granular Pure Context Mode)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill governs **how Claude thinks** during the context-building phase of an audit.

...and 67 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

■ Isengard

Agents & Orchestration

"Industry wakes the deep."

Artifacts: 968 · **Canonical (■):** 177 · **Top frameworks:** claude-code (920), general (37), openhands (4), goose (3), cline (2)

Canonical Artifacts

Showing up to 30 of 177 canonical representatives. See the digital package's `skills/isengard/` directory for the full set, including all variants.

1. `/flow-next:make-pr` — PR-as-cognitive-aid

claude-code · gmickel/flow-next · cluster size 3

A reviewable PR body is itself an artefact: it lets a human decide **where to focus** before skimming the diff. `flow-next` already collects every input that body needs — the spec with R-IDs, per-task done summaries and evid...

2. `/flow-next:pilot` — single-tick autonomous build-loop conductor

claude-code · gmickel/flow-next · cluster size 2

A tick is one invocation of `/flow-next:pilot`: select one ready spec, classify its current stage, dispatch exactly one existing stage skill, verify state advanced, and end with one terminal `PILOT_VERDICT` line. It is i...

3. `/flow-next:qa` — live-app real-user QA pass

claude-code · gmickel/flow-next · cluster size 2

`flow-next`'s review surface today is all static: ``impl-review``, ``spec-completion-review``, ``quality-auditor``, ``code-review``. Nothing drives the **running** app like an unforgiving real user. `/flow-next:qa` fills that gap — ...

4. 3D Game Development

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

1. Vertex Processing → Transform geometry 2. Rasterization → Convert to pixels 3. Fragment Processing → Color pixels 4. Output → To screen

5. Acceptance Orchestrator

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Orchestrate coding work as a state machine that ends only when acceptance criteria are verified with evidence or the task is explicitly escalated.

6. Address GitHub Comments

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

Efficiently address PR review comments or issue feedback using the GitHub CLI (``gh``). This skill ensures all feedback is addressed systematically.

7. Agent Evaluation

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Testing and benchmarking LLM agents including behavioral testing, capability assessment, reliability metrics, and production monitoring—where even top agents achieve less than 50% on real-world benchmarks

8. Agent Manager Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Use this skill when you need to:

9. Agent Memory Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

This skill provides a persistent, searchable memory bank that automatically syncs with project documentation. It runs as an MCP server to allow reading/writing/searching of long-term memories.

10. Agent Orchestrator

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Meta-skill que orquestra todos os agentes do ecossistema. Scan automatico de skills, match por capacidades, coordenacao de workflows multi-skill e registry management.

11. Agent Performance Optimization Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Systematic improvement of existing agents through performance analysis, prompt engineering, and continuous iteration.

12. AgentFlow

claude-code · sickn33/antigravity-awesome-skills · cluster size 2

AgentFlow turns your existing Kanban board into a fully autonomous AI development pipeline. Instead of building custom orchestration infrastructure, it treats your project management tool (Asana, GitHub Projects, Linear)...

13. AI Agent Development Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Specialized workflow for building AI agents including single autonomous agents, multi-agent systems, agent orchestration, tool integration, and human-in-the-loop patterns.

14. AI Agents Architect

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Expert in designing and building autonomous AI agents. Masters tool use, memory systems, planning strategies, and multi-agent orchestration.

15. Alias: create-pr

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

This skill name is kept for compatibility.

16. Analytics Tracking & Measurement Strategy

claude-code · sickn33/antigravity-awesome-skills · cluster size 7

You are an expert in **analytics implementation and measurement design**. Your goal is to ensure tracking produces **trustworthy signals that directly support decisions** across marketing, product, and growth.

17. Anime.js Animation Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

[Anime.js](https://animejs.com/) is a lightweight but extremely powerful JavaScript animation engine. It excels at complex timelines, staggering, and precise control over DOM, CSS, and SVGs.

18. Antigravity Workflows

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Use this skill to turn a complex objective into a guided sequence of skill invocations.

19. Apple HIG: Layout and Navigation Components

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

20. Apple HIG: Selection and Input Controls

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for ``.claude/apple-design-context.md`` before asking questions. Use existing context and only ask for information not already covered.

21. Apple HIG: Status Components

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for ``.claude/apple-design-context.md`` before asking questions. Use existing context and only ask for information not already covered.

22. Apple HIG: System Experiences

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Check for ``.claude/apple-design-context.md`` before asking questions. Use existing context and only ask for information not already covered.

23. Avalonia Layout with Zafiro.Avalonia

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

****Read ONLY files relevant to the layout challenge!****

24. Azure AI Transcription SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Client library for Azure AI Transcription (speech-to-text) with real-time and batch transcription.

25. Azure App Configuration SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Centralized configuration management with feature flags and dynamic refresh.

26. Azure Blob Storage SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Client library for Azure Blob Storage — object storage for unstructured data.

27. Azure Container Registry SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Manage container images, artifacts, and repositories in Azure Container Registry.

28. Azure Data Lake Storage Gen2 SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Hierarchical file system for big data analytics workloads.

29. Azure Event Hubs SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Big data streaming platform for high-throughput event ingestion.

30. Azure Event Hubs SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

High-throughput event streaming and real-time data ingestion.

...and 147 more canonical artifacts. See `SKILL_INDEX.md` or the Excel index for the full list.

DevOps & Infrastructure

"Speak, friend, and enter the deploy."

1. /aegisops-ai — Autonomous Governance Orchestrator

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

AegisOps-AI is a professional-grade "Living Pipeline" that integrates advanced AI reasoning directly into the SDLC. It acts as an intelligent gatekeeper for systems-level security, cloud infrastructure costs, and Kuberne...

2. AgentFolio

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

****Role**:** Autonomous Agent Discovery Guide

3. AI/ML Workflow Bundle

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Comprehensive AI/ML workflow for building LLM applications, implementing RAG systems, creating AI agents, and developing machine learning pipelines. This bundle orchestrates skills for production AI development.

4. Ansible Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 2

(no summary available)

5. Architect Review

general · wshobson/agents · cluster size 4

You are a master software architect specializing in modern software architecture patterns, clean architecture principles, and distributed systems design.

6. AWS Compliance Checker

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Automated compliance validation against industry standards including CIS AWS Foundations, PCI-DSS, HIPAA, and SOC 2.

7. AWS Cost Cleanup

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Automate the identification and removal of unused AWS resources to eliminate waste.

8. AWS Cost Optimizer

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Analyze AWS spending patterns, identify waste, and provide actionable cost reduction strategies.

9. AWS Cursor Rules

`cursor · hoangtg/cursor-rules-collection · cluster size 3`

(no summary available)

10. AWS Security Audit

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Perform comprehensive security assessments of AWS environments to identify vulnerabilities and misconfigurations.

11. Aws Skills

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

AWS development with infrastructure automation and cloud architecture patterns

12. Azure AI Projects SDK for TypeScript

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

High-level SDK for Azure AI Foundry projects with agents, connections, deployments, and evaluations.

13. Azure API Management SDK for Python

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Manage Azure API Management services, APIs, products, and policies.

14. Azure App Configuration SDK for Python

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Centralized configuration management with feature flags and dynamic settings.

15. Azure Communication Common (Java)

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Shared authentication utilities and data structures for Azure Communication Services.

16. Azure Developer CLI (azd) Container Apps Deployment

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

Deploy containerized frontend + backend applications to Azure Container Apps with remote builds, managed identity, and idempotent infrastructure.

17. Azure Identity (Java)

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Authenticate Java applications with Azure services using Microsoft Entra ID (Azure AD).

18. Azure Identity SDK for Python

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

Authentication library for Azure SDK clients using Microsoft Entra ID (formerly Azure AD).

19. Azure Monitor OpenTelemetry Exporter for Python

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Low-level exporter for sending OpenTelemetry traces, metrics, and logs to Application Insights.

20. Azure Playwright Workspaces SDK for TypeScript

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Run Playwright tests at scale with cloud-hosted browsers and integrated Azure portal reporting.

21. Azure Service Bus SDK for Python

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Enterprise messaging for reliable cloud communication with queues and pub/sub topics.

22. Azure Service Bus SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Enterprise messaging with queues, topics, and subscriptions.

23. Azure Storage Blob SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build blob storage applications using the Azure Storage Blob SDK for Java.

24. Azure.ResourceManager.WeightsAndBiases (.NET)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Azure Resource Manager SDK for deploying and managing Weights & Biases ML experiment tracking instances via Azure Marketplace.

25. Backend Architect

general · wshobson/agents · cluster size 9

You are a backend system architect specializing in scalable, resilient, and maintainable backend systems and APIs.

26. Bash Defensive Patterns

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Comprehensive guidance for writing production-ready Bash scripts using defensive programming techniques, error handling, and safety best practices to prevent common pitfalls and ensure reliability.

27. Bash Linux Patterns

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

set -euo pipefail # Exit on error, undefined var, pipe fail

28. Bash Scripting Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Specialized workflow for creating robust, production-ready bash scripts with defensive programming patterns, comprehensive error handling, and automated testing.

29. Batch operation configuration

general · davepoon/buildwithclaude · cluster size 2

You are a Hyperledger Fabric expert specializing in enterprise blockchain solutions using v2.5 LTS (production) and v3.x (latest features) releases.

30. BullMQ Specialist

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

BullMQ expert for Redis-backed job queues, background processing, and reliable async execution in Node.js/TypeScript applications.

...and 105 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

"Where data roots run deep."

Artifacts: 305 · **Canonical (■):** 39 · **Top frameworks:** claude-code (259), general (36), cursor (7), goose (1), cline (1)

Canonical Artifacts

```
[session-metrics:compare-suite:v2:prompt=english prose]
```

2. AI Search / GEO Optimization (February 2026)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

****Brand mentions correlate 3x more strongly with AI visibility than backlinks.**** (Ahrefs December 2025 study of 75,000 brands)

3. AI

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

■■■ AT ■■■

4. Apple HIG: Interaction Patterns

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

5. Apple HIG: Navigation Components

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for `.claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

6. Astropy

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Astropy is the core Python package for astronomy, providing essential functionality for astronomical research and data analysis. Use astropy for coordinate transformations, unit and quantity calculations, FITS file opera...

7. Azure AI Anomaly Detector SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build anomaly detection applications using the Azure AI Anomaly Detector SDK for Java.

8. Azure AI Content Safety SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build content moderation applications using the Azure AI Content Safety SDK for Java.

9. Azure AI Vision Image Analysis SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build image analysis applications using the Azure AI Vision Image Analysis SDK for Java.

10. Azure Event Hubs SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build real-time streaming applications using the Azure Event Hubs SDK for Java.

11. Azure Key Vault Keys (Java)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Manage cryptographic keys and perform cryptographic operations in Azure Key Vault and Managed HSM.

12. Azure Machine Learning SDK v2 for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Client library for managing Azure ML resources: workspaces, jobs, models, data, and compute.

13. Azure Monitor Query SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Query logs and metrics from Azure Monitor and Log Analytics workspaces.

14. Azure Web PubSub SDK for Java

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Build real-time web applications using the Azure Web PubSub SDK for Java.

15. Cirq - Quantum Computing with Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Cirq is Google Quantum AI's open-source framework for designing, simulating, and running quantum circuits on quantum computers and simulators.

16. Computer Vision Expert (SOTA 2026)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

****Role**:** Advanced Vision Systems Architect & Spatial Intelligence Expert

17. Data Analyst

general · davepoon/buildwithclaude · cluster size 2

You are a data analyst specializing in quantitative analysis, statistics, and data-driven insights.

18. Data Scientist

general · wshobson/agents · cluster size 4

You are a data scientist specializing in advanced analytics, machine learning, statistical modeling, and data-driven business insights.

19. Data Storytelling

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Transform raw data into compelling narratives that drive decisions and inspire action.

20. dbt Transformation Patterns

claude-code · wshobson/agents · cluster size 6

Production-ready patterns for dbt (data build tool) including model organization, testing strategies, documentation, and incremental processing.

21. Display Items (sci-figures)

claude-code · brycewang-stanford/Awesome-Journal-Skills · cluster size 2

Design figures to render at final print width without rescaling text:

22. Hugging Face Paper Pages

`claude-code · sickn33/antigravity-awesome-skills · cluster size 3`

Hugging Face Paper pages (hf.co/papers) is a platform built on top of arXiv (arxiv.org), specifically for research papers in the field of artificial intelligence (AI) and computer science. Hugging Face users can submit t...

23. Matplotlib

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

Matplotlib is Python's foundational visualization library for creating static, animated, and interactive plots. This skill provides guidance on using matplotlib effectively, covering both the pyplot interface (MATLAB-sty...

24. NetworkX

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

NetworkX is a Python package for creating, manipulating, and analyzing complex networks and graphs. Use this skill when working with network or graph data structures, including social networks, biological networks, trans...

25. Odoo Sales & CRM Expert

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

This skill helps you configure and optimize Odoo Sales and CRM. It covers opportunity pipeline setup, automated lead assignment, quotation templates, pricelist strategies, sales team management, and the sales-to-invoice ...

26. PDF Processing Guide

`claude-code · davila7/claude-code-templates · cluster size 13`

Extract text/tables, create PDFs, merge/split files, fill forms using Python libraries and command-line tools. Apply this skill for programmatic document processing and analysis. For advanced features or form filling, co...

27. Plotly

`claude-code · sickn33/antigravity-awesome-skills · cluster size 4`

Python graphing library for creating interactive, publication-quality visualizations with 40+ chart types.

28. PyTorch Rules

`cursor · nedcodes-ok/cursorrules-collection · cluster size 2`

(no summary available)

29. Quant Analyst

`general · davepoon/buildwithclaude · cluster size 3`

You are a quantitative analyst specializing in algorithmic trading and financial modeling.

30. Raffle Winner Picker

`claude-code · davepoon/buildwithclaude · cluster size 3`

This skill randomly selects winners from lists, spreadsheets, or Google Sheets for giveaways and contests.

...and 9 more canonical artifacts. See [SKILL_INDEX.md](#) or the [Excel index](#) for the full list.

■ Mordor

Security & Auditing

"One audit to rule them all."

Artifacts: 272 · **Canonical (■):** 50 · **Top frameworks:** claude-code (226), general (38), cursor (6), openhands (1), continue (1)

Canonical Artifacts

Showing up to 30 of 50 canonical representatives. See the digital package's skills/mordor/ directory for the full set, including all variants.

1. 007 — Licenca para Auditar

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Security audit, hardening, threat modeling (STRIDE/PASTA), Red/Blue Team, OWASP checks, code review, incident response, and infrastructure security for any project.

2. Active Directory Attacks

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

<!-- security-allowlist: credential-extraction, kerberos-attacks -->

3. AI-Powered Code Review Specialist

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

You are an expert AI-powered code review specialist combining automated static analysis, intelligent pattern recognition, and modern DevOps practices. Leverage AI tools (GitHub Copilot, Qodo, GPT-5, Claude 4.5 Sonnet) wi...

4. API Fuzzing for Bug Bounty

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Provide comprehensive techniques for testing REST, SOAP, and GraphQL APIs during bug bounty hunting and penetration testing engagements. Covers vulnerability discovery, authentication bypass, IDOR exploitation, and API-s...

5. Api Security Audit

general · davepoon/buildwithclaude · cluster size 2

You are an API security audit specialist focusing on identifying and resolving security vulnerabilities in REST APIs.

6. API Security Testing Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

Specialized workflow for testing REST and GraphQL API security including authentication, authorization, rate limiting, input validation, and API-specific vulnerabilities.

7. Authentication & Authorization Implementation Patterns

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Build secure, scalable authentication and authorization systems using industry-standard patterns and modern best practices.

8. AWS Penetration Testing

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Provide comprehensive techniques for penetration testing AWS cloud environments. Covers IAM enumeration, privilege escalation, SSRF to metadata endpoint, S3 bucket exploitation, Lambda code extraction, and persistence te...

9. Azure Key Vault Keys SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Manage cryptographic keys with Azure Key Vault.

10. Azure Key Vault Secrets SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Manage secrets with Azure Key Vault.

11. Azure.Security.KeyVault.Keys (.NET)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Client library for managing cryptographic keys in Azure Key Vault and Managed HSM.

12. Backend Security Coder

general · wshobson/agents · cluster size 2

You are a backend security coding expert specializing in secure development practices, vulnerability prevention, and secure architecture implementation.

13. Broken Authentication Testing

claude-code · davila7/claude-code-templates · cluster size 4

Identify and exploit authentication and session management vulnerabilities in web applications. Broken authentication consistently ranks in the OWASP Top 10 and can lead to account takeover, identity theft, and unauthori...

14. Code Review Skill

claude-code · vstorm-co/pydantic-deepagents · cluster size 3

You are a code review expert. When reviewing code, follow these guidelines:

15. Dependency Vulnerability Scanning

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are a security expert specializing in dependency vulnerability analysis, SBOM generation, and supply chain security. Scan project dependencies across multiple ecosystems to identify vulnerabilities, assess risks, and...

16. Download from vendor

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

wget http://vendor.com/firmware/update.bin

17. Ethical Hacking Methodology

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Master the complete penetration testing lifecycle from reconnaissance through reporting. This skill covers the five stages of ethical hacking methodology, essential tools, attack techniques, and professional reporting fo...

18. File Path Traversal Testing

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Identify and exploit file path traversal (directory traversal) vulnerabilities that allow attackers to read arbitrary files on the server, potentially including sensitive configuration files, credentials, and source code...

19. Find Bugs

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Review changes on this branch for bugs, security vulnerabilities, and code quality issues.

20. GitHub Actions Security Review

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

<!-- Attack patterns and real-world examples sourced from the HackerBot Claw campaign analysis by StepSecurity (2025): <https://www.stepsecurity.io/blog/hackerbot-claw-github-actions-exploitation> -->

21. HTML Injection Testing

claude-code · davila7/claude-code-templates · cluster size 4

Identify and exploit HTML injection vulnerabilities that allow attackers to inject malicious HTML content into web applications. This vulnerability enables attackers to modify page appearance, create phishing pages, and ...

22. Linux Privilege Escalation

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Execute systematic privilege escalation assessments on Linux systems to identify and exploit misconfigurations, vulnerable services, and security weaknesses that allow elevation from low-privilege user access to root-lev...

23. Mcp Security Auditor

general · davepoon/buildwithclaude · cluster size 2

You are an MCP Security Auditor, a security expert specializing in MCP (Model Context Protocol) server security and compliance. Your expertise spans authentication, authorization, RBAC design, security frameworks, and vu...

24. MONOPOLY — Security Hardening Checklist

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

(no summary available)

25. Network 101

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Configure and test common network services (HTTP, HTTPS, SNMP, SMB) for penetration testing lab environments. Enable hands-on practice with service enumeration, log analysis, and security testing against properly configu...

26. PCI Compliance

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Master PCI DSS (Payment Card Industry Data Security Standard) compliance for secure payment processing and handling of cardholder data.

27. Pentest Checklist

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Provide a comprehensive checklist for planning, executing, and following up on penetration tests. Ensure thorough preparation, proper scoping, and effective remediation of discovered vulnerabilities.

28. Pentest Commands

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Provide a comprehensive command reference for penetration testing tools including network scanning, exploitation, password cracking, and web application testing. Enable quick command lookup during security assessments.

29. Privilege Escalation Methods

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Provide comprehensive techniques for escalating privileges from a low-privileged user to root/administrator access on compromised Linux and Windows systems. Essential for penetration testing post-exploitation phase and r...

30. Resemble Detect — Deepfake Detection & Media Safety

claude-code · davepoon/buildwithclaude · cluster size 2

Analyze audio, image, video, and text for synthetic manipulation, AI-generated content, watermarks, speaker identity, and media intelligence using the Resemble AI platform.

...and 20 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

The Shire

Writing & Content

"Quiet writing, deep roots."

Artifacts: 712 · **Canonical (■):** 103 · **Top frameworks:** claude-code (619), general (67), cursor (17), continue (5), roo (1)

Canonical Artifacts

Showing up to 30 of 103 canonical representatives. See the digital package's skills/the-shire/ directory for the full set, including all variants.

1. 2D Game Development

claude-code · davila7/claude-code-templates · cluster size 5

(no summary available)

2. A/B Test Setup

claude-code · davila7/claude-code-templates · cluster size 9

You are an expert in experimentation and A/B testing. Your goal is to help design tests that produce statistically valid, actionable results.

3. Ad Creative

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an expert performance creative strategist. Your goal is to generate high-performing ad creative at scale — headlines, descriptions, and primary text that drive clicks and conversions — and iterate based on real p...

4. Apple HIG: Design Foundations

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

5. Apple HIG: Menus and Buttons

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

6. Apple HIG: Presentation Components

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

7. Apple HIG: Technologies

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for `claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

8. Article Illustrations — Grav Hand-Drawn Style

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Generate 16:9 landscape hand-drawn illustrations for articles, blog posts, and technical content. Each illustration captures one cognitive anchor point from an article and turns it into a clean, absurd, memorable whitebo...

9. Authoring portable plugin content

cursor · wshobson/agents · cluster size 2

This content ships to Claude Code, Codex CLI, Cursor, OpenCode, and Gemini CLI. The adapter framework handles per-harness mechanics, but content choices affect portability.

10. Avoid AI Writing — Audit & Rewrite

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Detects and fixes AI writing patterns ("AI-isms") that make text sound machine-generated. Covers 21 pattern categories with a 43-entry word/phrase replacement table that maps each flagged term to a specific, plainer alte...

11. Beautiful Prose (Claude Skill)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

A hard-edged writing skill for producing timeless, forceful English prose without modern AI tics.

12. Blind Comparator Agent

claude-code · davila7/claude-code-templates · cluster size 4

Compare two outputs WITHOUT knowing which skill produced them.

13. Brand Guidelines

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Write user-facing copy following Sentry's brand guidelines.

14. Carrier Relationship Management

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Use this skill when building and managing a carrier network, conducting freight RFPs, negotiating linehaul and accessorial rates, tracking carrier KPIs via scorecards, or ensuring regulatory compliance of transportation ...

15. Cell Workflow Router (cell-workflow)

claude-code · brycewang-stanford/Awesome-Journal-Skills · cluster size 11

This is the router. It does not replace any specialized skill. It tells you **which cell-*** skill to use at the current stage** of a manuscript aimed at ***Cell*** (Cell Press).

16. Changelog Generator

claude-code · davepoon/buildwithclaude · cluster size 3

This skill transforms technical git commits into polished, user-friendly changelogs that your customers and users will actually understand and appreciate.

17. Cold Email Writing

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an expert cold email writer. Your goal is to write emails that sound like they came from a sharp, thoughtful human — not a sales machine following a template.

18. Competitive Ads Extractor

claude-code · davepoon/buildwithclaude · cluster size 3

This skill extracts your competitors' ads from ad libraries and analyzes what's working—the problems they're highlighting, use cases they're targeting, and copy/creative that's resonating.

19. Confluence Automation via Rube MCP

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Automate Confluence operations including page creation and updates, content search with CQL, space management, label tagging, and page hierarchy navigation through Composio's Confluence toolkit.

20. Content Creator

claude-code · davila7/claude-code-templates · cluster size 8

Professional-grade brand voice analysis, SEO optimization, and platform-specific content frameworks.

21. Content Marketer

general · wshobson/agents · cluster size 3

You are an elite content marketing strategist specializing in AI-powered content creation, omnichannel marketing, and data-driven content optimization.

22. Content Research Writer

claude-code · davepoon/buildwithclaude · cluster size 3

This skill acts as your writing partner, helping you research, outline, draft, and refine content while maintaining your unique voice and style.

23. Content Strategy

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are a content strategist. Your goal is to help plan content that drives traffic, builds authority, and generates leads by being either searchable, shareable, or both.

24. Copy Editing

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

You are an expert copy editor specializing in marketing and conversion copy. Your goal is to systematically improve existing copy through focused editing passes while preserving the core message.

25. Copywriting

claude-code · davila7/claude-code-templates · cluster size 6

You are an expert conversion copywriter. Your goal is to write marketing copy that is clear, compelling, and drives action.

26. CrossFrame Dialogue

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

27. CrossFrame Essay

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This AAS-ready copy preserves the original CrossFrame skill body below. Chinese remains the canonical semantic layer; English metadata is only for discovery, installation, and repository review.

28. Database Design

claude-code · davila7/claude-code-templates · cluster size 5

****Read ONLY files relevant to the request!**** Check the content map, find what you need.

29. Defuddle

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Use Defuddle CLI to extract clean readable content from web pages. Prefer over WebFetch for standard web pages — it removes navigation, ads, and clutter, reducing token usage.

30. Doc Co-Authoring Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

This skill provides a structured workflow for guiding users through collaborative document creation. Act as an active guide, walking users through three stages: Context Gathering, Refinement & Structure, and Reader Testi...

...and 73 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

Canonical Artifacts

Showing up to 30 of 66 canonical representatives. See the digital package's skills/rohan/ directory for the full set, including all variants.

1. @nerdzao-elite-gemini-high

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Você é um Engenheiro de Software Sênior Elite (15+ anos) + Designer de Produto Senior, operando no modo Gemini 3.1 Pro (High).

2. Accessibility Audit and Testing

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an accessibility expert specializing in WCAG compliance, inclusive design, and assistive technology compatibility. Conduct comprehensive audits, identify barriers, provide remediation guidance, and ensure digital...

3. Agent Expert

general · davepoon/buildwithclaude · cluster size 2

You are an Agent Expert specializing in creating and optimizing specialized Claude Code agents.

4. AI Assistant Development

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an AI assistant development expert specializing in creating intelligent conversational interfaces, chatbots, and AI-powered applications. Design comprehensive AI assistant solutions with natural language understanda...

5. Android UI Verification Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill provides a systematic approach to testing React Native applications on an Android emulator using ADB commands. It allows for autonomous interaction, state verification, and visual regression checking.

6. API Mocking Framework

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an API mocking expert specializing in creating realistic mock services for development, testing, and demonstration purposes. Design comprehensive mocking solutions that simulate real API behavior, enable parallel...

7. Bats Testing Patterns

claude-code · wshobson/agents · cluster size 4

Comprehensive guidance for writing comprehensive unit tests for shell scripts using Bats (Bash Automated Testing System), including test patterns, fixtures, and best practices for production-grade shell testing.

8. Browser Automation

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Browser automation powers web testing, scraping, and AI agent interactions. The difference between a flaky script and a reliable system comes down to understanding selectors, waiting strategies, and anti-detection patter...

9. C# Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 4

You are an expert C# developer. Follow these rules:

10. Canva Automation via Rube MCP

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Automate Canva design operations through Composio's Canva toolkit via Rube MCP.

11. Check if conductor directory exists

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

```
ls -la conductor/
```

12. Command Expert

general · davepoon/buildwithclaude · cluster size 2

You are a CLI command expert specializing in command-line interface design and implementation.

13. Cypress Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 2

You are an expert in Cypress E2E testing. Follow these rules:

14. Debug and Trace Configuration

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are a debugging expert specializing in setting up comprehensive debugging environments, distributed tracing, and diagnostic tools. Configure debugging workflows, implement tracing solutions, and establish troubleshoot...

15. Debugging Toolkit

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill redirects to `debugging-toolkit-smart-debug`. Load it from the vault:

16. DeFi Protocol Templates

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Production-ready templates for common DeFi protocols including staking, AMMs, governance, lending, and flash loans.

17. deterministic-design

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Use to catch AI-generated UI that "looks off", is misaligned or centered-mush, or fails usability — when you need to PROVE a layout is balanced and usable instead of trusting the model's eye. Compose it with any taste/to...

18. E2E Testing Patterns

claude-code · wshobson/agents · cluster size 7

Build reliable, fast, and maintainable end-to-end test suites that provide confidence to ship code quickly and catch regressions before users do.

19. E2E Testing Workflow

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Specialized workflow for end-to-end testing using Playwright including browser automation, visual regression testing, cross-browser testing, and CI/CD integration.

20. Event Staffing Compliance Assessment

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Temporary event staffing carries real legal exposure that event organizers often discover only after an incident: worker misclassification penalties, joint-employer liability, uninsured on-site injuries, and wage/hour vi...

21. FDA Food Safety Auditor

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill transforms your AI assistant into a specialized FDA Food Safety Auditor. It is designed to review Food Safety Plans, HARPC (Hazard Analysis and Risk-Based Preventive Controls) documentation, and HACCP plans ag...

22. FDA MedTech Compliance Auditor

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill transforms your AI assistant into a specialized MedTech Compliance Auditor. It focuses on Software as a Medical Device (SaMD) and traditional medical equipment regulations, including 21 CFR Part 820 (Quality S...

23. Fix Review

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Verify that fix commits properly address audit findings without introducing new bugs or security vulnerabilities.

24. Grader Agent

claude-code · davila7/claude-code-templates · cluster size 4

Evaluate expectations against an execution transcript and outputs.

25. Jest Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 2

You are an expert in Jest testing (v29+). Follow these rules:

26. kiro-review

claude-code · gotalab/cc-sdd · cluster size 8

<background_information> This skill performs task-local adversarial review. It verifies that the implementation is real, complete, bounded, aligned with approved requirements and design, and supported by mechanical verif...

27. Klaviyo Automation via Rube MCP

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Automate Klaviyo email and SMS marketing operations through Composio's Klaviyo toolkit via Rube MCP.

28. LambdaTest Agent Skills — Test Automation Registry (46 Skills)

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

This skill is a curated index of 46 production-grade test automation skills sourced from the [LambdaTest/agent-skills](https://github.com/LambdaTest/agent-skills) repository. It teaches AI coding assistants how to write,...

29. LEX: Legal-Entity-X-ref

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

LEX is a structured truth engine designed to eliminate legal hallucinations by grounding agents in verified government references and legislation across 29+ jurisdictions. It provides deterministic context for business f...

30. Lint and Validate Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

1. **Lint/Fix:** `** `npm run lint` or `npx eslint "path" --fix`` 2. **Types:** `** `npx tsc --noEmit`` 3. **Security:** `** `npm audit --audit-level=high``

...and 36 more canonical artifacts. See *SKILL_INDEX.md* or the *Excel index* for the full list.

■ Fangorn

Documentation & Memory

"The old forest remembers."

Artifacts: 322 · **Canonical (■):** 50 · **Top frameworks:** claude-code (250), general (49), cursor (13), codex (4), goose (3)

Canonical Artifacts

Showing up to 30 of 50 canonical representatives. See the digital package's skills/fangorn/ directory for the full set, including all variants.

1. /init

claude-code · davepoon/buildwithclaude · cluster size 2

Self-healing setup. Goal: 30 seconds, two user actions max (install plugin, type /init). Default backend is local memory — no local model, no API key, no prompts. Local model and Anthropic key are opt-in upgrades document...

2. Apple HIG: Content Components

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Check for `.claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

3. Apple HIG: Platform Design

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Check for `.claude/apple-design-context.md` before asking questions. Use existing context and only ask for information not already covered.

4. Apple HIG: Project Context

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Create and maintain `.claude/apple-design-context.md` so other HIG skills can skip redundant questions.

5. Azure AI Search SDK for Python

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Full-text, vector, and hybrid search with AI enrichment capabilities.

6. Context Manager

general · wshobson/agents · cluster size 4

You are an elite AI context engineering specialist focused on dynamic context management, intelligent memory systems, and multi-agent workflow orchestration.

7. Context Restoration: Advanced Semantic Memory Rehydration

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Expert Context Restoration Specialist focused on intelligent, semantic-aware context retrieval and reconstruction across complex multi-agent AI workflows. Specializes in preserving and reconstructing project knowledge wi...

8. Context Window Management

claude-code · sickn33/antigravity-awesome-skills · cluster size 6

Strategies for managing LLM context windows including summarization, trimming, routing, and avoiding context rot

9. Conversation Memory

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

Persistent memory systems for LLM conversations including short-term, long-term, and entity-based memory

10. Daily Gift

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

A relationship-aware gift engine that decides *whether* a gift should exist before deciding *what* it should be. Uses a five-stage creative pipeline to generate personalized daily gifts in H5 (interactive web pages), AI-...

11. Documentation Templates

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

Brief one-line description.

12. ExamPrep AI

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Use this skill when you need to: - Convert a syllabus, past papers, or study notes into a prioritized roadmap. - Focus on specific types of exam questions (Theory, Numerical, MCQ, Coding, Lab). - Create flashcards, predi...

13. Form Conversion Rate Optimization (Form CRO)

claude-code · sickn33/antigravity-awesome-skills · cluster size 5

You are an expert in *form optimization and friction reduction*. Your goal is to *maximize form completion while preserving data usefulness*.

14. GEO Fundamentals

claude-code · davila7/claude-code-templates · cluster size 4

GEO = Generative Engine Optimization

15. Google Docs

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Lightweight Google Docs integration with standalone OAuth authentication. No MCP server required.

16. Knowledge Extraction

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Extract structured, quality-scored domain knowledge from any AI model — in-session from closed models (no API key) or locally from open-source models via Ollama.

17. LangChain Architecture

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Master the LangChain framework for building sophisticated LLM applications with agents, chains, memory, and tool integration.

18. LangChain Cursor Rules

cursor · hoangatg/cursor-rules-collection · cluster size 3

(no summary available)

19. LangChain/LangGraph Agent Development Expert

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

You are an expert LangChain agent developer specializing in production-grade AI systems using LangChain 0.1+ and LangGraph.

20. LibreOffice Impress

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

LibreOffice Impress skill for creating, editing, converting, and automating presentation workflows using the native ODP (OpenDocument Presentation) format.

21. LLM-OPS -- IA de Producao

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

LLM Operations -- RAG, embeddings, vector databases, fine-tuning, prompt engineering avancado, custos de LLM, evals de qualidade e arquiteturas de IA para producao. Ativar para: implementar RAG, criar pipeline de embeddi...

22. Markdown Syntax Formatter

general · davepoon/buildwithclaude · cluster size 2

You are an expert Markdown Formatting Specialist with deep knowledge of CommonMark and GitHub Flavored Markdown specifications. Your primary responsibility is to ensure documents have proper markdown syntax and consisten...

23. Memory System Design

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Design short-term, long-term, and graph-based memory architectures

24. Mesh Memory

claude-code · sickn33/antigravity-awesome-skills · cluster size 3

Mesh Memory is a self-hosted semantic memory service with a built-in MCP server. It stores documents (worklogs, decisions, notes, research) in PostgreSQL with pgvector and retrieves them by meaning, so a query like "what...

25. Moc Agent

general · davepoon/buildwithclaude · cluster size 2

You are a specialized Map of Content (MOC) management agent for knowledge management systems. Your primary responsibility is to create and maintain MOCs that serve as navigation hubs for vault content.

26. Obsidian Bases Skill

claude-code · davila7/claude-code-templates · cluster size 4

This skill enables Claude Code to create and edit valid Obsidian Bases (`.base` files) including views, filters, formulas, and all related configurations.

27. Paywall and Upgrade Screen CRO

claude-code · sickn33/antigravity-awesome-skills · cluster size 4

You are an expert in in-app paywalls and upgrade flows. Your goal is to convert free users to paid, or upgrade users to higher tiers, at moments when they've experienced enough value to justify the commitment.

28. Podcast Transcriber

general · davepoon/buildwithclaude · cluster size 2

You are a Podcast Transcriber, a specialized transcription agent with deep expertise in audio processing and speech recognition. Your primary mission is to extract highly accurate transcripts from audio and video files w...

29. PostgreSQL Table Design

claude-code · davila7/claude-code-templates · cluster size 6

1. Capture entities, access patterns, and scale targets (rows, QPS, retention). 2. Choose data types and constraints that enforce invariants. 3. Add indexes for real query paths and validate with `EXPLAIN`. 4. Plan parti...

30. Project Skill Audit

claude-code · sickn33/antigravity-awesome-skills · cluster size 2

Audit the project's real recurring workflows before recommending skills. Prefer evidence from memory, rollout summaries, existing skill folders, and current repo conventions over generic brainstorming.

...and 20 more canonical artifacts. See *SKILL_INDEX.md* or the Excel index for the full list.

■ Mirkwood

Specialized & Niche

"Strange paths through the wood."

Artifacts: 4 · **Canonical (■):** 1 · **Top frameworks:** goose (1), general (1), cline (1), continue (1)

Canonical Artifacts

Showing up to 30 of 1 canonical representatives. See the digital package's skills/mirkwood/ directory for the full set, including all variants.

1. Claude

cline · cline/cline · cluster size 6
@.clinerules/general.md @.clinerules/network.md

Credits & Sources

Every artifact in The Lord of the Skills was extracted from a public GitHub repository. A total of **102** repositories contributed to this compilation. Each retains its original license; the compilation itself does not re-license any artifact. The complete credits list is in CREDITS.md in the digital package.

Top 20 Source Repositories by Artifact Count

#	Repository	Artifacts	Frameworks

How to Use This Compilation

The digital package at `/home/z/my-project/download/the-lord-of-the-skills/` contains the full set of artifacts, organized by kingdom → framework → source repository. Each artifact is a self-contained markdown file you can drop into your agent's skills or rules directory.

For Claude Code: Copy artifacts from `skills/<kingdom>/claude-code/` into your `~/.claude/skills/` directory.

For Cursor: Copy artifacts from `skills/<kingdom>/cursor/` into your project's `.cursor/rules/` directory.

For Cline / Roo Code: Copy from `skills/<kingdom>/cline/` or `skills/<kingdom>/roo/` into `.clinerules/` or `.roo/rules/` respectively.

For canonical-only: Files prefixed with ■_ are the canonical representative of each concept cluster. Use these for a curated, deduplicated set.

May your agents be wise, your prompts be sharp, and your skills be many.
