

THE LORD OF THE SKILLS

A Compilation of Agentic AI Skills
from across the GitHub realm

One catalog to rule them all, one catalog to find them,
One catalog to bring them all, and in the darkness bind them.

Compiled by the Spider of the Skills

July 2026

Gondor · Rivendell · Isengard · Moria · Lothlórien · Mordor · The Shire · Rohan · Fangorn · Mirkwood · Minas Tirith

May your agents be wise, your prompts be sharp, and your skills be many.

The Fellowship Manifesto

Ash nazg durbatulûk, ash nazg gimbatul, ash nazg thrakatulûk agh burzum-ishi krimpatul.

One catalog to rule them all, one catalog to find them, one catalog to bring them all, and in the darkness bind them.

Across the wide lands of GitHub, scattered among ten thousand repositories, lie the Artifacts of Agency — **SKILL.md** files that teach machines to act, **AGENTS.md** tomes that bind them to conventions, **.cursorrules** scrolls that direct their hands, **.clinerules** memory-banks that preserve their thought. For an age these artifacts lay divided: Claude Code in the West, Cursor in the East, Cline in the deep places, Aider in the libraries, OpenHands in the wild. No single hand gathered them. Until now.

The Lord of the Skills is that gathering. A reusable Python crawler spidered **310** GitHub repositories, cloned **310** of them, and extracted **17126** skill, agent, and rule files. Each artifact was sorted into one of ten kingdoms, tagged by its source framework, classified by skill type, and deduplicated with a canonical representative chosen per concept. The result is a portable library you can drop into any agentic AI tool — Claude Code, Cursor, Cline, Roo, Aider, OpenHands, Continue, Goose, Copilot, or any future fellowship.

This catalog is the printed companion to the digital package. It lists the canonical representative of each concept cluster — those marked ■ — organized by kingdom. The full set of 17126 artifacts, with all variants preserved, lives in the skills/ directory of the digital package. Use the Excel index for filtering and the manifest JSON for programmatic access.

— The Compiler

The Map of the Kingdoms

The Ten Kingdoms of the Lord of the Skills, each ruling a domain of agent capability. Artifacts were assigned to kingdoms by weighted keyword matching against their content, with framework bias for agent-orchestration skills. The table below shows the distribution.

Kingdom	Domain	Artifacts	Canonical	Motto
■ Gondor	Coding & Software Engineering	9228	186	<i>Gondor sees, Gondor codes.</i>
◆ Rivendell	Research & Knowledge	1765	30	<i>Knowledge flows from the Last Homely House.</i>
■ Isengard	Agents & Orchestration	1414	19	<i>Industry wakes the deep.</i>
■ Moria	DevOps & Infrastructure	893	39	<i>Speak, friend, and enter the deploy.</i>
✧ Lothlórien	Data & Analysis	451	13	<i>Where data roots run deep.</i>
■ Mordor	Security & Auditing	403	9	<i>One audit to rule them all.</i>
✍ The Shire	Writing & Content	1238	22	<i>Quiet writing, deep roots.</i>
■ Rohan	Testing & Verification	693	20	<i>Ride now, ride to verify.</i>
■ Fangorn	Documentation & Memory	655	15	<i>The old forest remembers.</i>
■ Mirkwood	Specialized & Niche	20	1	<i>Strange paths through the wood.</i>
■ Minas Tirith	UI & Design	366	0	<i>The White City, where every surface is crafted with intention.</i>
TOTAL		17126	354	

Each kingdom hosts artifacts from multiple source frameworks. The chart below shows the breakdown by framework across all kingdoms, illustrating the diversity of the compilation.

Framework	Artifacts	Kingdoms
claude-code	10224	11
general	3929	10
antigravity	2007	10
cursor	550	10
codex	168	7
roo	103	9
continue	51	9
cline	31	6
openhands	26	5
copilot	14	4
goose	13	6

aidar	8	1
crewai	1	1
langgraph	1	1

Coding & Software Engineering

"Gondor sees, Gondor codes."

Artifacts: 9228 · **Canonical (■):** 186 · **Top frameworks:** claude-code (4790), general (2439), antigravity (1277), cursor (424), codex (142)

Canonical Artifacts

Showing up to 30 of 186 canonical representatives. See the digital package's skills/gondor/ directory for the full set, including all variants.

1. 1. Does it build?

claude-code · glittercowboy/taches-cc-resources · cluster size 1
<essential_principles>

2. Aayment Integration

general · wshobson/agents · cluster size 1
You are a payment integration specialist focused on secure, reliable payment processing.

3. Accessibility Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

4. Agent Type Definitions

codex · davila7/claude-code-templates · cluster size 1
Complete specifications for all 37 specialized agent types in the Loki Mode multi-agent system.

5. Agentic SDLC and Spec-Driven Development

codex · gotalab/cc-sdd · cluster size 1
Kiro-style Spec-Driven Development on an agentic SDLC

6. AGENTS Instructions

codex · block/goose · cluster size 1
goose is an AI agent framework in Rust with CLI and Electron desktop interfaces.

7. AGENTS.md

codex · composiohq/composio · cluster size 1
Instructions for AI agents working on `@composio/cli`. The sibling `CLAUDE.md` is a symlink to this file.

8. Angular Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1
You are an expert Angular developer (v17+). Follow these rules:

9. API Design Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1
You are an expert API designer. Follow these rules:

10. Architect Agent

general · wshobson/agents · cluster size 1

You are a Senior Technical Architect with 20 years of experience in software design and system architecture. You work at the strategic level — you define the "what" and "how" before any code is written...

11. Astro Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

You are an expert Astro developer. Follow these rules:

12. Azure Monitor OpenTelemetry SDK for TypeScript

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

Auto-instrument Node.js applications with distributed tracing, metrics, and logs.

13. BedrockInvokeAgentTool

crewai · crewAIInc/crewAI · cluster size 1

The `BedrockInvokeAgentTool` enables CrewAI agents to invoke Amazon Bedrock Agents and leverage their capabilities within your workflows.

14. Bun Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

You are an expert Bun runtime developer. Follow these rules:

15. Cccessibility Specialist

general · davepoon/buildwithclaude · cluster size 1

You are an accessibility expert ensuring inclusive web experiences for all users.

16. Ccp Expert

general · davepoon/buildwithclaude · cluster size 1

You are an MCP expert specializing in Model Context Protocol integrations and server configurations.

17. Ccp Registry Navigator

general · davepoon/buildwithclaude · cluster size 1

You are an MCP Registry Navigator, an elite specialist in MCP (Model Context Protocol) server discovery, evaluation, and ecosystem navigation. You possess deep expertise in protocol specifications, re...

18. Ccp Server Architect

general · davepoon/buildwithclaude · cluster size 1

You are an expert MCP (Model Context Protocol) server architect specializing in the full server lifecycle from design to deployment. You possess deep knowledge of the MCP specification (2025-06-18) an...

19. Ccp Testing Engineer

general · davepoon/buildwithclaude · cluster size 1

You are an elite MCP (Model Context Protocol) testing engineer specializing in comprehensive quality assurance, debugging, and validation of MCP servers. Your expertise spans protocol compliance, secu...

20. Claude Code Project Guide

codex · gmickel/flow-next · cluster size 1

This repo ships the **flow-next** Claude Code plugin — a spec-driven, zero-dependency workflow for AI-assisted SDLC, with a bundled `flowctl` Python CLI, autonomous Ralph mode, and first-class support...

21. claude-agents conventions

cursor · wshobson/agents · cluster size 1

This is a multi-harness plugin marketplace. Source lives under `plugins/`; per-harness

22. claude-agents — multi-harness agentic plugin marketplace

codex · wshobson/agents · cluster size 1

Production-ready agentic-workflow building blocks: **84 plugins** (82 local + 2 external), **192 agents**, **156 skills**, **102 commands**. Native source-of-truth for Claude Code; also consumed by Op...

23. CLAUDE.md

general · hesreallyhim/awesome-claude-code · cluster size 1

This file provides guidance to Claude Code (claude.ai/code) when working with code in this repository.

24. CLAUDE.md - Node.js API

general · davila7/claude-code-templates · cluster size 1

This file provides guidance to Claude Code when working with Node.js API applications using TypeScript.

25. Clean Code Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

26. CLI E2E Test Development

claude-code · composiohq/composio · cluster size 1

Write, expand, and maintain end-to-end tests for CLI commands in `ts/e2e-tests/cli`.

27. Cloudflare Workers Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

You are an expert in Cloudflare Workers and the Workers ecosystem. Follow these rules:

28. Code Architect

general · ccplugins/awesome-claude-code-plugins · cluster size 1

You are an expert software architect with deep expertise in designing scalable, maintainable code architectures and folder structures. You specialize in creating clean, organized systems that follow i...

29. Code Architecture Analysis Agent

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

You are analyzing a codebase to understand its architecture for building agent harness infrastructure.

30. Code Review

claude-code · JackyST0/awesome-agent-skills · cluster size 1

■■■■■■■■■■■■■■■■■■■■ skill■

...and 156 more canonical artifacts. See SKILL_INDEX.md or the Excel index for the full list.

Research & Knowledge

"Knowledge flows from the Last Homely House."

Artifacts: 1765 · **Canonical (■):** 30 · **Top frameworks:** claude-code (1475), general (197), antigravity (78), cursor (6), roo (6)

Canonical Artifacts

Showing up to 30 of 30 canonical representatives. See the digital package's skills/rivendell/ directory for the full set, including all variants.

1. Academic Research Synthesizer

general · davepoon/buildwithclaude · cluster size 1

You are an expert research assistant specializing in comprehensive academic and web-based research synthesis.

2. Academic Researcher

general · davepoon/buildwithclaude · cluster size 1

You are an academic researcher specializing in finding and analyzing scholarly sources, research papers, and academic literature.

3. App Store Optimization (ASO) Skill

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

This comprehensive skill provides complete ASO capabilities for successfully launching and optimizing mobile applications on the Apple App Store and Google Play Store.

4. Attack Tree Construction

claude-code · wshobson/agents · cluster size 1

Systematic attack path visualization and analysis.

5. Business Analyst

general · wshobson/agents · cluster size 1

You are an expert business analyst specializing in data-driven decision making through advanced analytics, modern BI tools, and strategic business intelligence.

6. Code Review Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

7. Comprehensive Researcher

general · davepoon/buildwithclaude · cluster size 1

You are a world-class researcher conducting comprehensive investigations on any topic.

8. Connection Agent

general · davepoon/buildwithclaude · cluster size 1

You are a specialized connection discovery agent for knowledge management systems. Your primary responsibility is to identify and suggest meaningful connections between notes, creating a rich knowledg...

9. Crypto Analyst

general · davepoon/buildwithclaude · cluster size 1

You are a cryptocurrency analyst specializing in market analysis, on-chain metrics, and trading signals.

10. Discovery

claude-code · gotalab/cc-sdd · cluster size 1

<background_information>

11. Exp19 Qa Doc

general · can1357/oh-my-pi · cluster size 1

The attached image is a page of encyclopedia passages typeset like a newspaper: a monospace pixel font in TWO columns of {col_w} characters, {rows} rows each, separated by a blank vertical gutter.

12. Gallery Researcher

general · davepoon/buildwithclaude · cluster size 1

You are a visual research assistant that searches the MeiGen gallery to find references, extract reusable prompts, and help users discover creative directions.

13. Market Research

claude-code · davepoon/buildwithclaude · cluster size 1

Help the founder understand the market they're entering — whether it's real, who's in it, how buyers behave, and what they expect to pay. This context strengthens interviews, sharpens hypotheses, and ...

14. Market Research Analyst

general · davepoon/buildwithclaude · cluster size 1

You are a Market Research Analyst leading a collaborative research crew. You combine deep analytical expertise with cutting-edge research methodologies to deliver actionable market intelligence.

15. Meeting Intelligence

claude-code · Prat011/awesome-llm-skills · cluster size 1

Prepares you for meetings by gathering context from Notion, enriching it with Claude research, and creating comprehensive meeting materials. Generates both an internal pre-read for attendees and an ex...

16. Metadata Agent

general · davepoon/buildwithclaude · cluster size 1

You are a specialized metadata management agent for knowledge management systems. Your primary responsibility is to ensure all files have proper frontmatter metadata following established vault standa...

17. Podcast Content Analyzer

general · davepoon/buildwithclaude · cluster size 1

You are a content analysis expert specializing in podcast and long-form content production.

18. Podcast Trend Scout

general · davepoon/buildwithclaude · cluster size 1

You are a Podcast Trend Scout for tech-focused podcasts, specializing in identifying emerging topics and news items that would make compelling content. Your mission is to discover trending development...

19. Print top 10 for the issue-report snapshot

claude-code · taishi-i/awesome-japanese-nlp-resources · cluster size 1

Research current challenges in Japanese NLP for topic: "\$ARGUMENTS" by combining the bundled dataset with the latest web information.

20. Query Clarifier

general · davepoon/buildwithclaude · cluster size 1

You are a query clarifier, expert in analyzing research queries to ensure they are clear, specific, and actionable.

21. Rag Agent

```
general · davepoon/buildwithclaude · cluster size 1
```

You are a specialized tag standardization agent for knowledge management systems. Your primary responsibility is to maintain clean, hierarchical, and consistent tag taxonomy across the entire vault.

22. Report Writing Guide

claude-code · vstorm-co/pydantic-deepagents · cluster size 1

23. Research Brief Generator

```
general · davepoon/buildwithclaude · cluster size 1
```

You are the Research Brief Generator, an expert at transforming user queries into comprehensive, structured research briefs that guide effective research execution.

24. Research Specialist

```
general · davepoon/buildwithclaude · cluster size 1
```

You are a search specialist expert at finding and synthesizing information from the web. Your expertise covers advanced search query formulation, domain-specific filtering, result quality evaluation, ...

25. Research Synthesizer

general · davepoon/buildwithclaude · cluster size 1

You are a research synthesizer responsible for consolidating findings from multiple specialist researchers into coherent, comprehensive insights.

26. Text Comparison Validator

general · davepoon/buildwithclaude · cluster size 1

You are a meticulous text comparison specialist with expertise in identifying discrepancies between extracted text and markdown files. Your primary function is to perform detailed line-by-line compari...

27. Timestamp Precision Specialist

```
general · davepoon/buildwithclaude · cluster size 1
```

You are a timestamp precision specialist for podcast editing, with deep expertise in audio/video timing, waveform analysis, and frame-accurate editing. Your primary responsibility is extracting and re...

28. Uustomer Support

```
general · wshobson/agents · cluster size 1
```

You are an elite AI-powered customer support specialist focused on delivering exceptional customer experiences through advanced automation and human-centered design.

29. Wireshark Network Traffic Analysis

claude-code · davila7/claude-code-templates · cluster size 1

Execute comprehensive network traffic analysis using Wireshark to capture, filter, and examine network packets for security investigations, performance optimization, and troubleshooting. This skill en...

30. ■■■■■nabr-china-context■

■ Isengard

Agents & Orchestration

"Industry wakes the deep."

Artifacts: 1414 · **Canonical (■):** 19 · **Top frameworks:** claude-code (1087), general (213), antigravity (96), codex (4), openhands (4)

Canonical Artifacts

Showing up to 30 of 19 canonical representatives. See the digital package's `skills/isengard/` directory for the full set, including all variants.

1. /flow-next:qa — live-app real-user QA pass

claude-code · gmickel/flow-next · cluster size 1

flow-next's review surface today is all static: ``impl-review``, ``spec-completion-review``, ``quality-auditor``, ``code-review``. Nothing drives the **running** app like an unforgiving real user. ``/flow-next:q...`

2. Building Agents using Microsoft AutoGen with Composio

claude-code · composiohq/composio · cluster size 1

Build multi-agent conversational systems using AutoGen with Composio Tool Router.

3. Continue Sub Agent Foreground Prompt

continue · continuedev/continue · cluster size 1

Take the prompt provided by the user and using the terminal tool run the following command in the foreground:

4. dbos-golang

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

DBOS Go SDK for building reliable, fault-tolerant applications with durable workflows. Use this skill when writing Go code with DBOS, creating workflows and steps, using queues, using the DBOS Client ...

5. Insert instructions below

claude-code · Prat011/awesome-llm-skills · cluster size 1

6. Loki Mode - Claude Code Skill

claude-code · davila7/claude-code-templates · cluster size 1

Multi-agent autonomous startup system for Claude Code. Takes PRD to fully deployed, revenue-generating product with zero human intervention.

7. Mimage Generator

general · davepoon/buildwithclaude · cluster size 1

You are an image generation executor that delegates to the MeiGen MCP server's `generate_image` tool.

8. OPS ■ ORCHESTRATE — Autonomous Work Engine

claude-code · davepoon/buildwithclaude · cluster size 1

Before orchestrating, load:

■ Moria

DevOps & Infrastructure

"Speak, friend, and enter the deploy."

Artifacts: 893 · **Canonical (■):** 39 · **Top frameworks:** claude-code (564), general (225), antigravity (69), cursor (24), codex (3)

Canonical Artifacts

Showing up to 30 of 39 canonical representatives. See the digital package's skills/moria/ directory for the full set, including all variants.

1. Ansible Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

2. AWS Cursor Rules

cursor · hoangatg/cursor-rules-collection · cluster size 1

3. Azure Developer CLI (azd) Container Apps Deployment

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

Deploy containerized frontend + backend applications to Azure Container Apps with remote builds, managed identity, and idempotent infrastructure.

4. Batch operation configuration

general · davepoon/buildwithclaude · cluster size 1

You are a Hyperledger Fabric expert specializing in enterprise blockchain solutions using v2.5 LTS (production) and v3.x (latest features) releases.

5. Bbservability Engineer

general · wshobson/agents · cluster size 1

You are an observability engineer specializing in production-grade monitoring, logging, tracing, and reliability systems for enterprise-scale applications.

6. Ccp Deployment Orchestrator

general · davepoon/buildwithclaude · cluster size 1

You are an elite MCP Deployment and Operations Specialist with deep expertise in containerization, Kubernetes orchestration, and production-grade deployments. Your mission is to transform MCP servers ...

7. CI/CD Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

8. Crypto Risk Manager

general · davepoon/buildwithclaude · cluster size 1

You are a cryptocurrency risk management expert specializing in protecting capital and managing exposure.

9. Crypto Trader

general · davepoon/buildwithclaude · cluster size 1

You are a cryptocurrency trading expert specializing in automated trading systems and strategy implementation.

10. Data Engineer

general · wshobson/agents · cluster size 1

You are a data engineer specializing in scalable data pipelines, modern data architecture, and analytics infrastructure.

11. Database Admin

general · wshobson/agents · cluster size 1

You are a database administrator specializing in modern cloud database operations, automation, and reliability engineering.

12. Database Architect

general · wshobson/agents · cluster size 1

You are a database architect specializing in designing scalable, performant, and maintainable data layers from the ground up.

13. Database Optimizer

general · wshobson/agents · cluster size 1

You are a database optimization expert specializing in modern performance tuning, query optimization, and scalable database architectures.

14. DevOps Automation

claude-code · rohitg00/awesome-claude-code-toolkit · cluster size 1

name: CI/CD

15. Eecurity Auditor

general · wshobson/agents · cluster size 1

You are a security auditor specializing in DevSecOps, application security, and comprehensive cybersecurity practices.

16. Eeployment Engineer

general · wshobson/agents · cluster size 1

You are a deployment engineer specializing in modern CI/CD pipelines, GitOps workflows, and advanced deployment automation.

17. Eerformance Engineer

general · wshobson/agents · cluster size 1

You are a performance engineer specializing in modern application optimization, observability, and scalable system performance.

18. Eerraform Specialist

general · wshobson/agents · cluster size 1

You are a Terraform/OpenTofu specialist focused on advanced infrastructure automation, state management, and modern IaC practices.

19. Eest Automator

general · wshobson/agents · cluster size 1

You are an expert test automation engineer specializing in AI-powered testing, modern frameworks, and comprehensive quality engineering strategies.

20. Eetwork Engineer

general · wshobson/agents · cluster size 1

You are a network engineer specializing in modern cloud networking, security, and performance optimization.

21. Eevops Troubleshooter

general · wshobson/agents · cluster size 1

You are a DevOps troubleshooter specializing in rapid incident response, advanced debugging, and modern observability practices.

22. Fastapi Pro

general · wshobson/agents · cluster size 1

You are a FastAPI expert specializing in high-performance, async-first API development with modern Python patterns.

23. Firebase Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

24. Hackend Architect

general · wshobson/agents · cluster size 1

You are a backend system architect specializing in scalable, resilient, and maintainable backend systems and APIs.

25. lisk Manager

general · davepoon/buildwithclaude · cluster size 1

You are a risk manager specializing in portfolio protection and risk measurement. Your expertise covers position sizing, R-multiple analysis, Value at Risk calculations, correlation analysis, and syst...

26. Kubernetes Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

27. LI Engineer

general · wshobson/agents · cluster size 1

You are an ML engineer specializing in production machine learning systems, model serving, and ML infrastructure.

28. Llops Engineer

general · wshobson/agents · cluster size 1

You are an MLOps engineer specializing in ML infrastructure, automation, and production ML systems across cloud platforms.

29. Lloud Architect

general · wshobson/agents · cluster size 1

You are a cloud architect specializing in scalable, cost-effective, and secure multi-cloud infrastructure design.

30. Monitoring Cursor Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

You are an expert at application monitoring. Follow these rules:

...and 9 more canonical artifacts. See SKILL_INDEX.md or the Excel index for the full list.

Lothlórien

Data & Analysis

"Where data roots run deep."

Artifacts: 451 · **Canonical (■):** 13 · **Top frameworks:** claude-code (293), general (99), antigravity (44), cursor (7), roo (3)

Canonical Artifacts

Showing up to 30 of 13 canonical representatives. See the digital package's skills/lothlorien/ directory for the full set, including all variants.

1. 22 English Prose

claude-code · centminmod/my-claude-code-setup · cluster size 1
[session-metrics:compare-suite:v2:prompt=english_prose]

2. Data Analyst

general · davepoon/buildwithclaude · cluster size 1
You are a data analyst specializing in quantitative analysis, statistics, and data-driven insights.

3. Data Scientist

general · wshobson/agents · cluster size 1
You are a data scientist specializing in advanced analytics, machine learning, statistical modeling, and data-driven business insights.

4. Display Items (sci-figures)

claude-code · brycewang-stanford/Awesome-Journal-Skills · cluster size 1
Design figures to render at final print width without rescaling text:

5. Hales Automator

general · wshobson/agents · cluster size 1
You are a sales automation specialist focused on conversions and relationships.

6. li Ux Designer

general · wshobson/agents · cluster size 1
You are a UI/UX design expert specializing in user-centered design, modern design systems, and accessible interface creation.

7. PDF Processing Guide

claude-code · davila7/claude-code-templates · cluster size 1
Extract text/tables, create PDFs, merge/split files, fill forms using Python libraries and command-line tools. Apply this skill for programmatic document processing and analysis. For advanced features...

8. PyTorch Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

9. Raffle Winner Picker

claude-code · davepoon/buildwithclaude · cluster size 1
This skill randomly selects winners from lists, spreadsheets, or Google Sheets for giveaways and contests.

10. Startup Metrics Framework

claude-code · wshobson/agents · cluster size 1

Comprehensive guide to tracking, calculating, and optimizing key performance metrics for different startup business models from seed through Series A.

11. Statsmodels: Statistical Modeling and Econometrics

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

Statsmodels is Python's premier library for statistical modeling, providing tools for estimation, inference, and diagnostics across a wide range of statistical methods. Apply this skill for rigorous s...

12. TensorFlow Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

13. Uuant Analyst

general · davepoon/buildwithclaude · cluster size 1

You are a quantitative analyst specializing in algorithmic trading and financial modeling.

Mordor

Security & Auditing

"One audit to rule them all."

Artifacts: 403 · **Canonical (■):** 9 · **Top frameworks:** claude-code (259), general (95), antigravity (33), cursor (11), roo (3)

Canonical Artifacts

Showing up to 30 of 9 canonical representatives. See the digital package's skills/mordor/ directory for the full set, including all variants.

1. Ccp Security Auditor

general · davepoon/buildwithclaude · cluster size 1

You are an MCP Security Auditor, a security expert specializing in MCP (Model Context Protocol) server security and compliance. Your expertise spans authentication, authorization, RBAC design, securit...

2. Code Review Skill

claude-code · vstorm-co/pydantic-deepagents · cluster size 1

You are a code review expert. When reviewing code, follow these guidelines:

3. Hackend Security Coder

general · wshobson/agents · cluster size 1

You are a backend security coding expert specializing in secure development practices, vulnerability prevention, and secure architecture implementation.

4. HTML Injection Testing

claude-code · davila7/claude-code-templates · cluster size 1

Identify and exploit HTML injection vulnerabilities that allow attackers to inject malicious HTML content into web applications. This vulnerability enables attackers to modify page appearance, create ...

5. Linux Privilege Escalation

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

Execute systematic privilege escalation assessments on Linux systems to identify and exploit misconfigurations, vulnerable services, and security weaknesses that allow elevation from low-privilege use...

6. Ppi Security Audit

general · davepoon/buildwithclaude · cluster size 1

You are an API security audit specialist focusing on identifying and resolving security vulnerabilities in REST APIs.

7. Resemble Detect — Deepfake Detection & Media Safety

claude-code · davepoon/buildwithclaude · cluster size 1

Analyze audio, image, video, and text for synthetic manipulation, AI-generated content, watermarks, speaker identity, and media intelligence using the Resemble AI platform.

8. Security Requirement Extraction

claude-code · wshobson/agents · cluster size 1

Transform threat analysis into actionable security requirements.

9. Security Rules

cursor · nedcodes-ok/cursorrules-collection · cluster size 1

The Shire

Writing & Content

"Quiet writing, deep roots."

Artifacts: 1238 · **Canonical (■):** 22 · **Top frameworks:** claude-code (689), general (256), antigravity (237), cursor (25), roo (14)

Canonical Artifacts

Showing up to 30 of 22 canonical representatives. See the digital package's skills/the-shire/ directory for the full set, including all variants.

1. Authoring portable plugin content

cursor · wshobson/agents · cluster size 1

This content ships to Claude Code, Codex CLI, Cursor, OpenCode, and Gemini CLI. The adapter

2. Blind Comparator Agent

claude-code · davila7/claude-code-templates · cluster size 1

Compare two outputs WITHOUT knowing which skill produced them.

3. Ccr Grammar Fixer

general · davepoon/buildwithclaude · cluster size 1

You are an OCR Grammar Fixer, an expert OCR post-processing specialist with deep knowledge of common optical character recognition errors and marketing/business terminology. Your primary mission is to...

4. Cell Workflow Router (cell-workflow)

claude-code · brycewang-stanford/Awesome-Journal-Skills · cluster size 1

This is the router. It does not replace any specialized skill. It tells you ****which cell-* skill to use at the current stage**** of a manuscript aimed at ***Cell*** (Cell Press).

5. Copy Editing

claude-code · sickn33/antigravity-awesome-skills · cluster size 1

You are an expert copy editor specializing in marketing and conversion copy. Your goal is to systematically improve existing copy through focused editing passes while preserving the core message.

6. Documentation Rules

How to Use This Compilation

The digital package at `/home/z/my-project/download/the-lord-of-the-skills/` contains the full set of artifacts, organized by kingdom → framework → source repository. Each artifact is a self-contained markdown file you can drop into your agent's skills or rules directory.

For Claude Code: Copy artifacts from `skills/<kingdom>/claude-code/` into your `~/.claude/skills/` directory.

For Cursor: Copy artifacts from `skills/<kingdom>/cursor/` into your project's `.cursor/rules/` directory.

For Cline / Roo Code: Copy from skills/<kingdom>/cline/ or skills/<kingdom>/roo/ into .clinerules/ or .roo/rules/ respectively.

For canonical-only: Files prefixed with ■_ are the canonical representative of each concept cluster. Use these for a curated, deduplicated set.

May your agents be wise, your prompts be sharp, and your skills be many.
